

E SQUARE CLOUD MANAGED SERVICES

Re-energize your IT Infrastructure with Cloud!

ENTERPRISE CHALLENGES

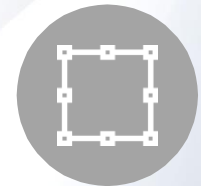

Lack of trained resources

- Lack of available training options on all the leading cloud providers like AWS, Azure & Google
- No Standard terminologies across cloud providers
- Lack of cloud certification programs

The Psychological Barriers

Will the cloud be more secure than my internal data center? Can my cloud provider maintain my uptime standards? Will their technical support address my problems quickly?

People and Processes

When it comes to cloud adoption, the biggest challenge isn't technology, it's the people and processes that must change and adapt. This takes time, limiting the effectiveness of cloud adoption.

CLOUD COMPETENCY

01

Strategic Cloud Consulting

- Cloud Strategy, RoadMap, TCO & ROI
- Portfolio Analysis for Cloud Readiness
- Quick POC on Products, UseCases, BigData

02

Third Party Software Licensing

Market Place Products & Solution Consulting to target the Licensing Margin which is up to 25 to 30%

03

Service Competencies

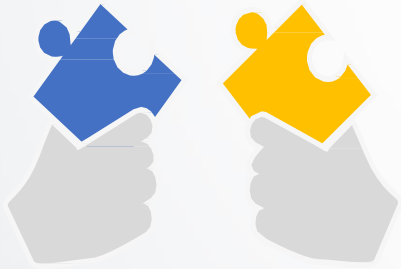

Cost Optimization with Reserved or Spot Instances. Cloud Infrastructure Monitoring Back-up, Change Management etc

04

Migration Competency

Migration Plan and Execution with projects, discovery, planning, migration & operations

OUR APPROACH

Analyze

Our passion is to create solution for every business use-case we take every piece of the puzzle to analyze it and identify the requirements, understand the business processes & dependencies, pain-areas and financial-implications

Innovate

We approach highest degree of technological innovations to provide you with the best possible solution, we use Cloud ecosystem to push the boundaries of innovations and provide our customers with unparalleled business solutions

Transform

We are committed to provide our customers with the transformed business solutions which is more secure, reliable and scalable and gives them a significant competitive advantage.

CLOUD TECHNOLOGY PARTNERS

Delivering solutions on the leading cloud platforms.

Microsoft Azure seamlessly integrates an organization's existing applications and databases and enables easy migration to the cloud with little hassle. Proven tools that guide you in migrating your on-premises applications, workloads and databases to the cloud.

Amazon Web Services (AWS) drives innovation, scale, and agility by accelerating your adoption of cloud to provide enterprise customers with transformative and sustainable benefits such as rationalization, automation, and modernization to reduce costs and increase velocity.

Google Cloud Platform's customer driven innovation, scale and agility by accelerating the use of industry best practices along with built in solution innovators. We also provide end-to-end Managed Cloud Services and Cloud Operations Design.

CLOUD OFFERINGS

Cloud Consulting

- Cloud Readiness Assessment
- Cloud Roadmap Design
- TCO & ROI Analysis
- DevOps Maturity Assessment
- Cloud Transformation Advisories

Cloud Managed Services

- Managing Cloud Configuration
- Hybrid & Private Cloud
- Cloud Backup & Storage
- Cost & Change Management
- Support & Monitoring

Cloud Migration Services

- Proof of Concept(POC)
- Workload & Application Migration
- Cloud Center of excellence (COE)
- Third-Party Integration
- Cloud First Technology

CLOUD CONSULTING SERVICES

Cloud Readiness Assessment

- Workload & Application Discovery
- Database & Software dependency Analysis
- TCO calculator to obtain the financial benefits

Detailed enterprise application architecture & workload analysis to be migrated on cloud. Targeted Cloud Infrastructure architecture is planned and documented

Cloud Roadmap Design

Cloud Transformation Advisories

We engage with our customers during the Cloud transformation by the Cloud providers. We effectively bridge to gaps to ensure the customer gets the maximum cloud benefits at minimum cost

We help enable our customers for continuous integration and delivery during and post cloud transformation. We take into account business process, applications and people to assess the DevOps Maturity and guide our customer throughout the process

DevOps Maturity Assessment

Cloud Training & Certification

During the transformation provide staff training to our customers and help them get ready for contributing to new cloud ecosystem

CLOUD MANAGED SERVICES

Private & Hybrid Cloud

Whether on-premises or dedicated hosted cloud, eCloudChain manages it efficiently & diligently. Our cloud engineers are well-versed to support your mission-critical business environment

Cloud Backup & Storage

We Safeguard your business by determining the right strategy for cloud-backup & storage. We provide file & data level customizable backup scheduling

Change Management

Changes to applications, databases, OS are part of any business IT operations and we efficiently support the ongoing change-management process in the cloud

Cloud Monitoring

Monitoring Services for Cloud and Networking Resources. We help you to keep your organization's performance & Security at highest levels

Cost Management

Know your cloud infrastructure cost, Compare it with existing Data Center maintenance-cost to know the TCO & ROI

Configuration Management

Automate Your infrastructure configuration Management and save precious time & money by avoiding the heavy lifting and shifting of the servers, databases & storage

CLOUD MIGRATION SERVICES

Seamless Migration

No Business Performance Disruption
Time-Tested Structured Approach
Analyze existing infrastructure & Pain Areas

Monitoring

24*7 Monitoring & Visualization
Unparalleled support
Faster & Safer Migration

POC Approach

Thorough execution & validation
Phase-wise approach, Security compliance & best practices

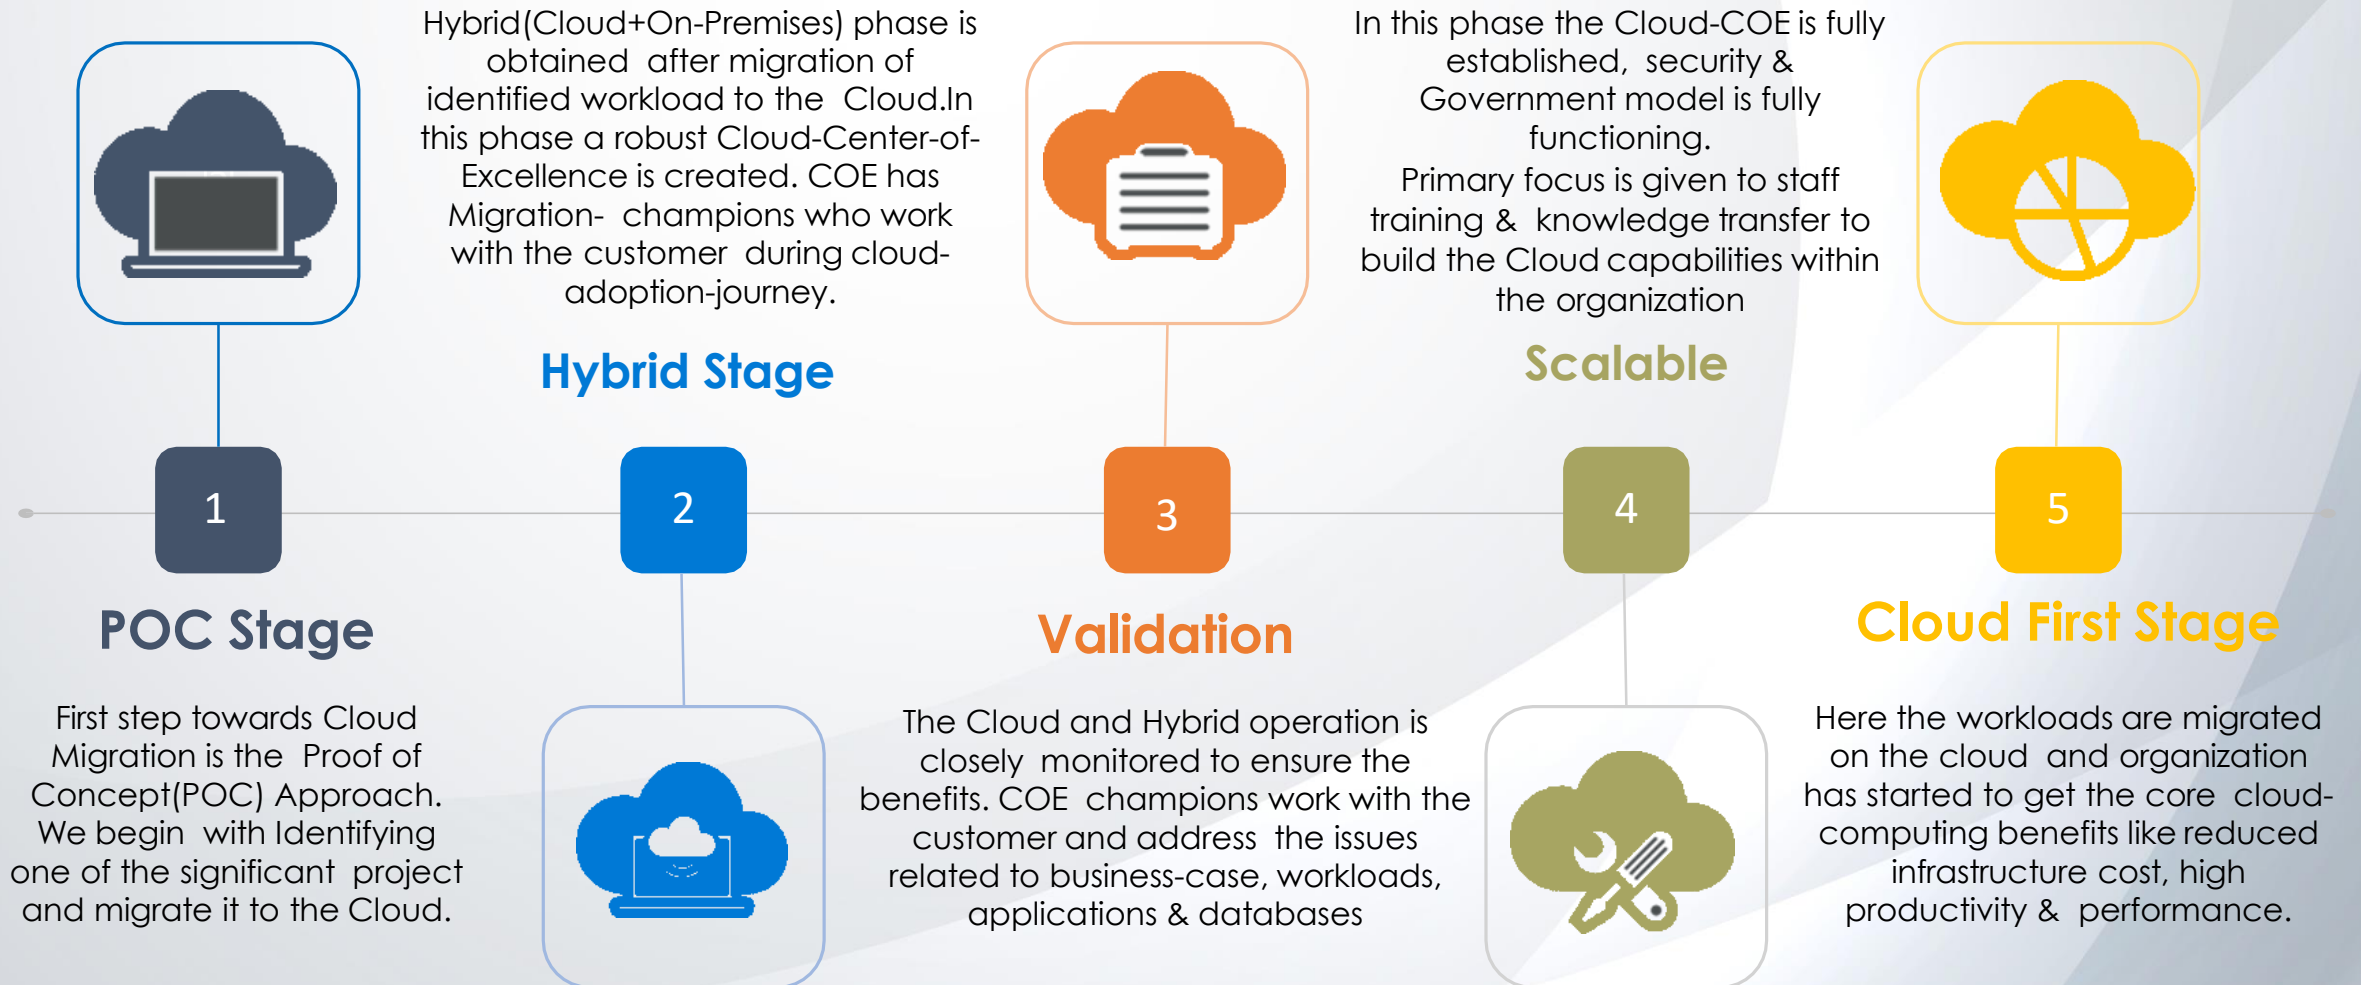

Cloud COE

Dedicated team for project governance
Excellent stakeholder Management
TCO & ROI analysis

PROOF OF CONCEPT APPROACH

CASE STUDIES

MS OFFICE 365 INTEGRATION FOR OSWAS

Office 365 Integration for Odisha Secretariat Workflow Automation System (OSWAS)

AD Deployment and Migration to Azure

Highlights of the Project

- ✓ Licensing & Provisioning
- ✓ Integration of Office 365 with OSWAS using WOPI
- ✓ Teams Implementation and Training
- ✓ 24 x 7 Managed Services

MS TEAMS FOR SCHOOL AND MASS EDUCATION

Digital Learning Applications on Cloud

Collaborative Classrooms, File Sharing and Research on Azure

Highlights of the Project

- ✓ Office 365 Licensing for 65 Lacs Users on Azure
- ✓ Tenant creation for 30 Districts
- ✓ Training on MS Teams
- ✓ 24 x 7 Managed Services

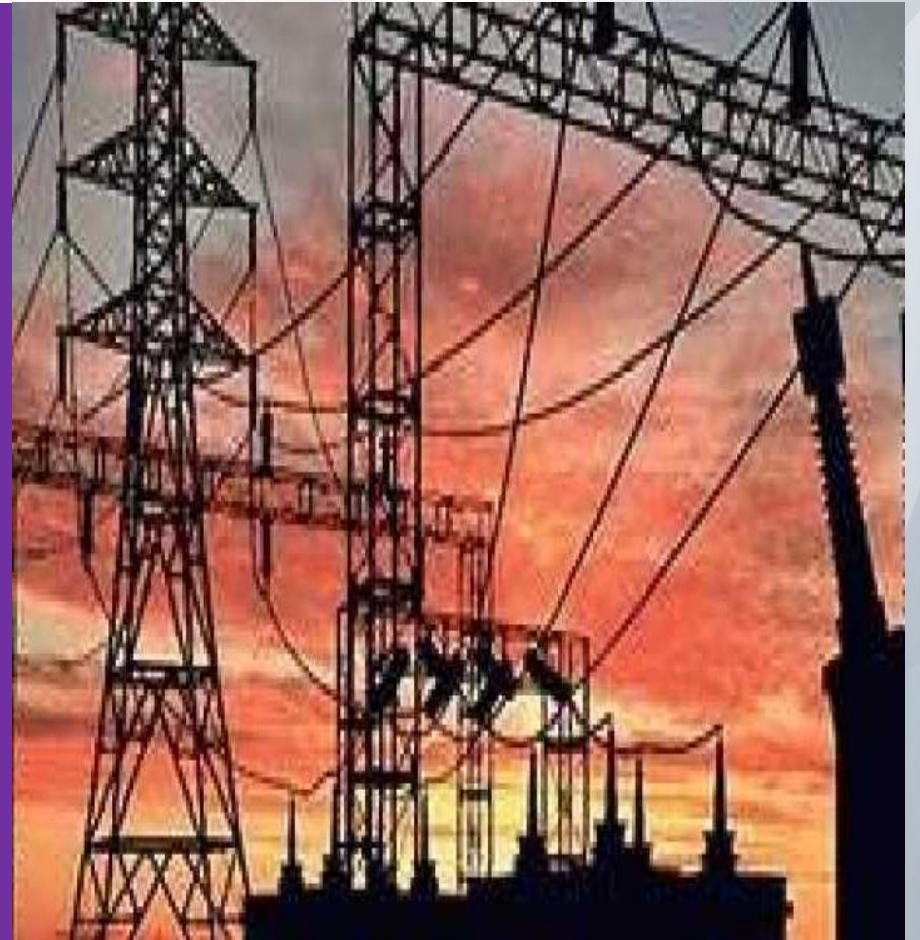

CLOUD INFRASTRUCTURE FOR GRIDCO

Meter Tempering Analytics applications on Cloud

Production VM, Storage and Bandwidth on Azure

Highlights of the Project

- ✓ Creating production infrastructure on Azure
- ✓ Migration of exiting Analytics applications to Cloud VM
- ✓ Ensuring Data Security given the nature of applications
- ✓ 24 x 7 Managed Services

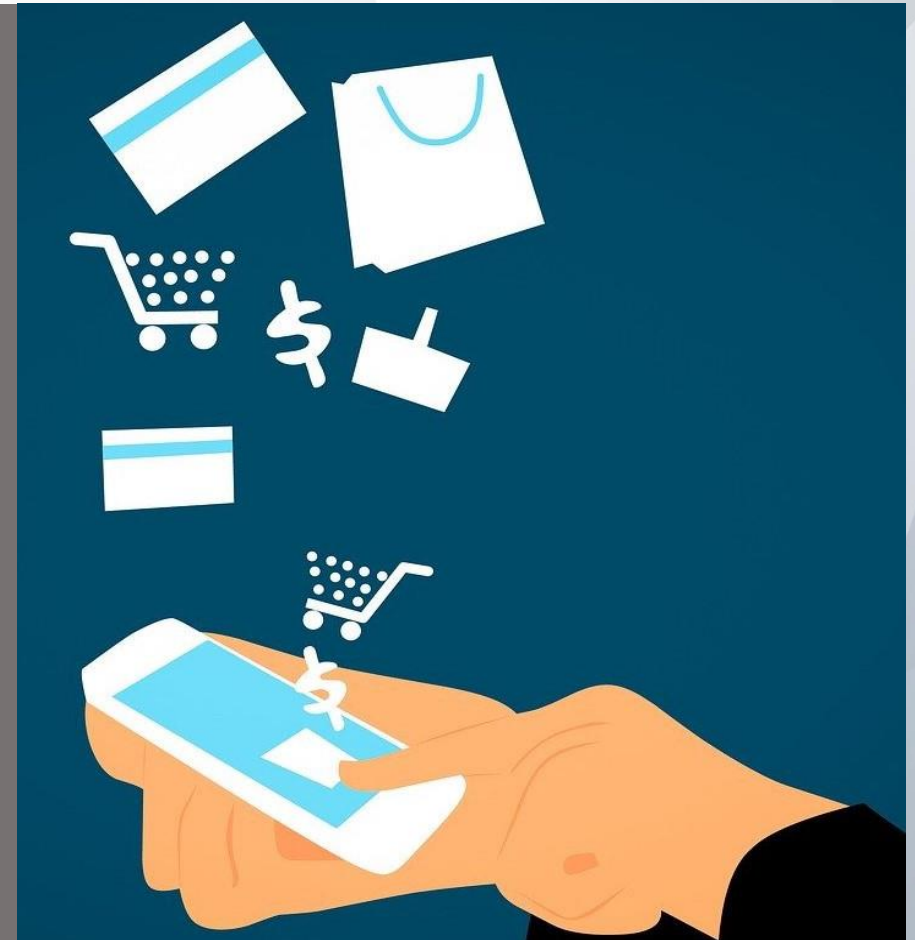

CLOUD INFRASTRUCTURE FOR E-COM PORTAL

E-Commerce applications on Cloud

Production of VM, Storage, Bandwidth on Azure

Highlights of the Project

- ✓ Creating Production infrastructure on Azure
- ✓ Scaling the instance as per bandwidth requirement
- ✓ Ensuring Data Security of applications
- ✓ 24 x 7 Managed Services

TALLY MIGRATION TO CLOUD

Migration of Tally ERP to Cloud

Migration and business mapping on Azure

Highlights of the Project

- ✓ Multi-Location Data Consolidation from Multiple Users
- ✓ Private and Secure business data on cloud
- ✓ Managed Services

POWER OF SIMPLICITY

Tally.ERP 9

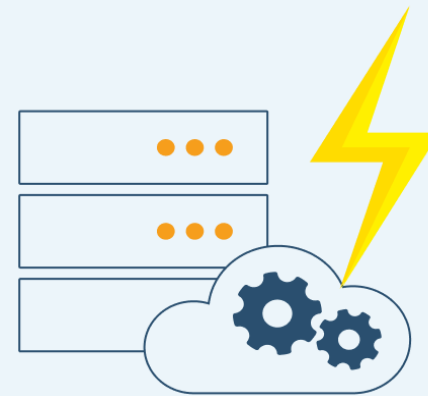

DR FOR SAP ON CLOUD

Disaster Recovery of SAP to Cloud

Data Restoration and Storage Solution on Azure

Highlights of the Project

- ✓ Disaster Recovery site setup on the cloud
- ✓ Azure Site Recovery replicating the App VM
- ✓ Double Take DR replicates entire server image
- ✓ Managed Services

**CLOUD
DISASTER
RECOVERY**

STORAGE ON CLOUD FOR MEDIA HOUSE

Cloud Access & Storage for Media House

Critical data and Applications on Azure

Highlights of the Project

- ✓ AI based anti-ransomware capability
- ✓ Automated data restoration tasks
- ✓ Cost effective scaling of the legacy data storage capacity
- ✓ Digital documentation of corporate infrastructure and processes

APPLICATION MIGRATION ON CLOUD FOR EDUCATION APPS

Migration of Education Apps to Cloud

Autoscaling Application Block to Azure

Highlights of the Project

- ✓ Agile capabilities such as auto-scaling and auto-recovery
- ✓ installation of in-house application on the new VM
- ✓ Managed Services

**Thank
You**
